KB3000-AHL — Adjustable Height Changing Station

Designed to Be More Inclusive

Too often, it is a struggle for families and caregivers of adolescents and adults with special needs or disabilities to find an adequate means of changing in public. Whether it is traveling through an airport or train station, attending a sporting event, or simply visiting a museum, families with special needs requirements have very limited options (if any at all). In many instances, they may have to skip going out in public altogether.

For 35 years, Koala Kare products has been the leader in commercial baby changing stations. Now, we are excited to offer our first Special Needs Changing Station, the KB3000-AHL, expanding our product offerings to address the needs of all families. In addition to contemporary design and durability, the KB3000's table is height adjustable, which reduces the risk of injury for caregivers during changing. This unit will be a lifeline connecting those with special needs and disabilities to the public locations that they want and need to be able to visit.

- **Approximately 30% of the U.S. population has a disability**

- **65% of families with disabled children feel isolated frequently or all the time**

- **83% of disabled people avoided inaccessible or unwelcoming businesses**

Prioritizing Safety

- Working load of up to 500 lbs.
- Emergency stop.
- Comes with back-up battery in case of power outage.
- Tested to ISO Standard 60601-1 and -2

Easy to Use

- Table height adjusts from 12" to 41" from the floor.
- Height is easily adjusted using electronic control buttons on the wall panel or the front guard of unit.
- Curved dip in front of guard for easier caregiver access.

Unmatched Durability

- Designed specifically for public areas.
- Vandal-resistant changing surface rated to IK10.
- Suitable for wet environments with rust-free frame.

Hygienic

- Crevice-free design.
- Smooth surface that is easy to wipe down and disinfect.
