

No Plumbing Required

Portable Safety Solutions you can depend on from Bradley

On-Site® Gravity-Fed Eyewash

Lightweight, versatile and made of impact-resistant plastic, Bradley's patented On-Site® gravity-fed eyewash uses just 7 gallons (26.5 L) of water to provide an ANSI-compliant flush. ANSI recommends eyewash stations be within 10 seconds or 55 feet (16.6 m) from a potential hazard. On-Site's small footprint allows for placement close by.

- 60 lbs (27.2 kg) filled and 3.5 lbs (1.6 kg) empty
- Flushes eyes for 15 minutes at a minimum of 0.4 gallons/minute (1.5 L)
- Clear tank for easy inspection at a glance
- Highly visible safety yellow color easy to see in an emergency
- Exclusive patented vandal-resistant design
- Stainless steel clamps hold tank to pedestal
- Mount on wall, work surface or on optional waste cart that stores up to 56 gallons (212 L) of waste solution
- Stainless steel mounting brackets
- Easy to maintain
- Certified to ANSI Z358.1
- Compliant with EN 15154-4
