

push-pull door handle

Min 3/4" clearance from edge of door

With the threat of germ cross-contamination more globally recognized than ever before, the latest survival strategy among today's Away-From-Home patrons has become simple: "Don't Touch Anything!" Yet with all the modern "touch-free" advances in restroom hygiene, it's hard to grasp why the door handle has been ignored. Until now. The Purleve is an innovative solution that offers your patrons a cleaner way out!

- Advances a sleeve with Microban antimicrobial protection after very use.
- Thousands of uses per sleeve cartridge
- Installs easily, replacing any standard push-pull handle.
- Low maintenance, low cost
- Green Product - Recyclable Refill
