### TA-ABS

White Polymer (ABS)

With SanaFor™ Antimicrobial Additive

**DRY TIME: 14 SECONDS<sup>1</sup>**

**ENERGY PER USE: 3.7 Wh<sup>1</sup>**

UL Environment published the first global Product Category Rules (PCR) for hand dryers which outlined industry consensus testing procedures to quantify environmental impact and performance. Third-party testing to these guidelines documents a product's environmental impact over its lifecycle. This impact is detailed in certified, internationally-recognized Environmental Product Declarations (EPDs). EPDs enable specifiers and buyers to make true apples-to-apples comparisons and more informed product selections. Excel Dryer received the industry's first certified EPDs.
